

---

The Duluth Art Institute is committed to the health and safety of our guests, artists, and staff. Although there are no confirmed cases of COVID-19 in St Louis County, we continually monitor updates from health organizations, local and state government, and the broader arts community.

The Depot has comprehensive cleaning guidelines and we will do the same at our Lincoln Park building. Much of what we can do to prevent the spread of disease is part of our standard protocol, including sanitizing all surfaces frequently.

We encourage the practice of frequent and thorough hand washing in addition to frequent sanitizing of surfaces at work, home, and in vehicles. Please stay home if you are symptomatic of a cold or feel ill.

At this time, artists talks and classes will happen as scheduled. Any program changes will be communicated via DAI's website, email, and our social media platforms.

Sincerely,

A handwritten signature in black ink, appearing to read 'Christina Woods'.

Christina Woods  
*DAI Executive Director*
